The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 1-7 are rejected under 35 U.S.C. 103(a) as being unpatentable over Anderson (4,415,596) alone or if necessary in view of Candy for reasons of record.

Applicant argues that the claims are directed to a product made by a method where soy-containing material is co-carmelized with sugar. Applicant also argues that neither Anderson or Candy disclose this feature. This argument has been considered but is not persuasive. The claims are directed to a product and not to a process of making a product. Anderson clearly treats the problem of the off-flavor of soybean by his process (column 2, lines 53-60) and provides for a caramel product. The fact that a different process is used to make the product does alone constitute unobviousness. The protein content in Anderson (column 4, lines 60-63) falls within the range of the claims. Also the fat content in Anderson (column 3, lines 31-34) falls within the range of the claims. A carmelized product is produced in Anderson with heat. So one of ordinary skill in the

art would expect the moisture content in Anderson to fall within the range of the claims. Applicant refers to the specific heating conditions, which are process limitations, carrying no weight in product claims.

Claims 8-20 are allowed.

The rejection of the claims over Rash in view of Yang and further in view of Candy has been withdrawn for the reasons argued by applicant.

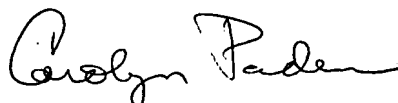

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
